BIOCHAR COALITION

<https://biocharcoalition.org>

Biochar Coalition Objectives

- Improve Soil Health & Crops Production
- Improved Water Quality & Conservation
- Improved Air Quality & Carbon Sequestration
- Entry level grassroots jobs creation
- On the job training & workforce development
- Education advocating the benefits of biochar
- Biomass reduction & WUI defensive space support

How Is BIOCHAR COALITION Unique?

- Our core group believes physical labor is productive exercise and healthy while improving the environment through biochar production & carbon sequestration
- We recognize the portability of the “Ring of Fire” give us the flexibility to match the labor force with diverse scenarios for Agriculture and Forest biomass reduction logistics and varied number of biochar kilns required to meet service contract.
- Our nonprofit model will grow into a grant management & administration Cooperative with regional chapters.

Ken Scherer & Edward Perez

Ken is Biochar Coalition Director training CSUC student Edward the kiln operations process at Paradise property brush removal workshop sponsored by BCFSC.

Edward is a Climate Action Fellow
